

ANTIBACTERIAL DRESSING

MEDIHONEY®

with Active *Leptospermum* Honey

ANTIBACTERIAL WOUND GEL

*Healing
is Believing*

CONTAINS
100%
ANTIBACTERIAL
MANUKA HONEY

OVERVIEW

MEDIHONEY Antibacterial Wound Gel is formulated from 100% Medical Grade Manuka Honey combined with natural gelling agents in a single patient multi-use tube.

FEATURES AND BENEFITS

- Contains 100% Medical Grade Manuka Honey (80% by weight)
- Helps to reduce malodour¹
- Promotes autolytic debridement through the osmotic action, effectively removing necrotic tissue and wound slough²
- Low pH of 3.5 – 4.5, which has been associated with a lower pH of the wound environment^{3,4}
- Can be applied directly to the wound
- Has been safely used on patients of all ages, including paediatrics and neonates²
- May be used for up to 4 months from opening

INDICATIONS

- Acute and chronic wounds
- Infected and malodorous wounds
- Necrotic and sloughy wounds
- Pressure injuries
- Surgical, donor sites, and recipient graft sites
- Leg ulcers (venous, arterial and mixed aetiology ulcers) and diabetic foot ulcers
- Superficial burns
- Superficial wounds such as cuts, scratches, and abrasions
